

DisplayPort 1.2 Detachable ACTIVE OPTICAL CABLE, DPFC-200D

Description

Detachable DisplayPort 1.2 active optical cable, DPFC-200D, enables to transmit 4K (4096x2160) at 60Hz signal up to 100m (328feet) over plenum graded & LSZH hybrid cable. It avoids any scaling or data compression for lessening a burden of data transmission.

DPFC-200D is designed compact enough to be fitted into various installation environments with cutting edge technology performance.

DPFC-200D offers perfect flexibility during installation by separating DisplayPort connector part and Active Optical Cable part. It gives slim, light, easy installation like a general copper DisplayPort cable.

Optional USB power cable on RX side can be provided upon request for non-standard display device which provides insufficient power to operate.
